Comments and Suggestions concerning the 4 March meeting with
Mr. Firth and a group of OIA employees

Reaction to the meeting was favorable. There were no surprises
but people seemed to think that it was not a waste of time.

Some comments and/or suggestions concerning the meeting are
as follows:

- OK →* 1. There should be a clerical representative.
- This should happen ahead of time →* 2. One did not really get to know the people attending the meeting. It might be more helpful to get people to talk about their work rather than to just talk about vague issues which will not be solved.
- OK →* 3. If we cannot meet at the appointed time, it might be better to change to another day because of flex time.
- Nope* 4. Some people feel that the meeting might be more relaxed if the group was smaller. However, they realize that this would be difficult to arrange.
